Pool Service Agreement

Monthly Maintenance For a charge of \$_____ per month, payable in advance:

- We will adjust pH, total alkalinity and chlorine levels with chemicals to maintain sanitation and clarity
- We will remove debris, and empty the skimmer and pump baskets
- We will brush the steps, swim-outs and walls as appropriate
- We will skim the surface
- We will inspect the pool equipment for leaks and operation, and backwash the filters accordingly

We will furnish all materials for the above services. Because material and fuel costs, which we cannot control, are a major element of our charge, we reserve the right to adjust the monthly charge effective on the beginning of any month with a thirty (30) days notice.

Additional Visits. For additional charges:

- We will perform other maintenance you request, such as cleaning filters and draining the pool
- We will respond to storms, severe algae, removal of debris and similar problems

Spa Service. Our maintenance of spas above ground and/or not attached to a pool's system will be chemical service only.

Missed Service Visits. When your normal service day falls on a holiday, or servicing is delayed by weather, vehicle or equipment failure, or backups resulting therefrom, we will service your pool as soon as possible. If you are inconvenienced by a missed service visit, please contact us and we will be happy to attend to your needs.

Winter Service. During the winter months, service is performed every other week at the monthly rate stated above as adjusted. Normally winter service starts in middle to late October and ends in middle to late April.

Solar Covers. Please remove them to allow complete service. If the cover is not removed on your service day, we will pull it back approximately four feet and service the pool chemically. We don't recommend using solar covers in summer because water temperatures in excess of 90 degrees Fahrenheit can reduce sanitation levels rapidly and promote algae growth, which will also dramatically shorten the life of the cover.

Repairs. For your convenience we will perform repairs you authorize that will cost up to \$_____ without an estimate. If it appears that the cost will exceed that amount we will provide you with an estimate and will not commence work until you approve it and we receive a 50 percent deposit.

Payment. The due date is stated in the invoice. You are allowed a grace period of twenty (20) business days to submit payment in full. Amounts not paid by then bear interest at one and one-half percent (1.5 %) per month from the due date. We suspend work if an account is past due for sixty (60) days and will not recommence until we receive payment in full including interest. We reserve the right to provide truthful answers to inquiries by third parties about payment history.

Termination. Either party may terminate this agreement with or without cause thirty days after sending written notice and account paid in full.
