

Was Jesus a Real Man or Myth?

There can be only one way to know if Jesus was a Real Person and that is by what he said. However, I do not believe the information can be found in the Bible, but in the Gnostic Gospels. To understand what is in those gospels one needs know what the religion of Osiris was based on, and to know also that understanding is the basis of most religions of today. The Basis of Osiris has never been explained! The Gnostic Gospels have never been explained. If that was an untrue statement, this work would not have to be done.

First I want to say that I am no Scholar. This was just my hobby for now, 40 years. There are many things I leave to the Scholars to explain concerning this material. Why is because of the same reason. Also that they will have to learn this material as it has never been taught in any school. In fact it has never openly been discussed as to do so in the past meant death! That has only changed in our near times.

What this material and explanation is about has to do with what we today call, Alchemy. I found that in the Gnostic Gospels, it was known as "The Magic of Egypt." This is mentioned in connection with Jesus in many sections of that material. In fact, it is mentioned so often that it must have been quite knowledgeable to the Holy Men of that area! As the Gnostics are quite limited I feel that point is important to understand. Also, as I explain this material, the connection to alchemy will be mentioned and discussed, as that also must become known!

My point to this discussion is to show that Jesus was a Real Person. Why and how is tied to his parables. They are mostly based on the Ancient Religion of Osiris. This was secretive hidden knowledge, to speak of it meant death! I don't believe that the parables and things said were information carried on by mythmakers, they would not risk their lives by using hidden secretive information for any reason, especially if their lives would be at stake. And besides, why would they put information down that few if any would ever understand except another trained that knew the past? From G. Massey, Egypt, Light of the World, pg. 135 "The meaning of words or symbols must be lost for them to become mythical." Jesus was speaking of things he knew! It was never lost to the holy men, or later to the alchemists!

I need to point out that understanding this material means that Jesus was also what we would call, A Pagan. He was a Sun Worshipper.! He was an alchemists of the times. I conclude that many other Holy Men of the times also knew this information. It may be why he was put to death. In the Gnostics is said in many places, "He was a magus, he learned Magic in Egypt"! It also said that he was speaking and teaching, talking about this knowledge to the Vulgar! That is persons like me and you! Who could say this except other Holy Men?

I said that I am no scholar. I also want to say I am not a writer. But, because I felt that I have found something of the past that is very important, I wrote a book about it. My book site www.TheFirstMythology.com is both my site and where I explain my book. On that site I have collected information from G. Massey! There to is much of what is in my book. Most of what I say here needs to be covered there. I want to say that when you understand this material, you can connect information on most pages of every book he has written (G. Massey). It is the same for all Scholars that have written on this material. Almost all myth of our past is connected to the Alchemical Process.

The alchemists wrote also in secretive Ways. Most drew what we call, "a series of Pictorial Allegories." I studied those tablets of "Abraham the Jew" which were tied to those of a man named, Flamel. I did so as it gave me two series to compare. Abraham used seven allegories to explain the process. As three of them had a double meaning, there are actually ten! Flamel drew a series below Abrahams that were, when you understand them, a copy! On the alchemy web site, WWW.Levity.com/alchemy you can find very many of these series collected. Many of the sayings, in fact there is a library there all about alchemy. I have on my site quite a few of these showing that they all are the same, even though they all are drawn differently! Some show the Process, the basis of the religion in ten or less steps. Some of the series may have 50 or more, but they are all of the same process that has 8 steps to perform. The Series are about what I call the "Basis of the ancient Egyptian Religion of Osiris. They also are about Genesis. They are also the, One Way to make the Philosophers Stone!

Alchemy is known as "The Great Work (Genesis). Why is man is doing (it was believed) as God did! He is recreating matter as God created the world. Because it is in depth, and much information is needed to completely understand, the total explanation is on my site or in my book. I have cross referenced the

allegories from many alchemists to show it is all the same, and I think easily understandable. If not I can always be reached. That information you will find connects to everything I will say here.

The ancients made assumptions based on the knowledge they had at the times for the understanding of this process they found. What this means is that all we know about religion is based on this alchemical understanding of Creation. Jesus knew this process, the holy men knew this process, and the alchemists. They found and showed with allegory the same information, the same way! When understood all will know that our religions of today, all are false and what is known and believe by many is also false based on these past assumptions. I will place some of that information here. Much of that, misinformation we have been taught for so long it is like a, Second Nature.

Almost all of this material comes from an understanding of the Creation! The alchemists said in many places, "Genesis is the Greatest Book ever written about alchemy." How I have come to understand what Genesis is actually about is the yearly cycle. The ancients saw the earth as "Two Earths." What that means is the sun recreates the Northern hemisphere in six days of the moon, Dec 21 to June 21. It then changes directions and recreates the southern hemisphere the following six months. The Days of Creation are based on one cycle of the moon. This understanding was shown in several ways, Two obelisks at some temples, Two lions, two celebrations during Dec. The astrological sign of the goat with two horns, and the Twins in June! I'm sure when understood by all it will be found that it was shown in many more ways. In G. Masseys book, "Egypt, Light of the World" this is discussed. By knowing Genesis is about the yearly cycle, this allows the alchemists to use Genesis as a process. This is no different than any farmer of today knowing when to plant, and when to harvest. Why this is important to you, the alchemists showed the steps of the stone, the process, almost always in times connected to astrological symbols, or by numbers of things. By knowing the symbol, or by counting it is easy to understand what step is being shown by the pictorial allegory. I show in several places of my site how to count or what to count. If you can count something in a pictorial allegory, do so! The point is this concerning Genesis. The alchemical process uses all of nature as forces to perfect matter. The process is Genesis but, we only use the first three days, and repeat. That is the work part of Genesis to make matter, That is, "The dry land called earth." We only use and repeat that parts as, we make the dry land, and we augment by the same means until the

matter was believed perfected. The Alchemical explanation you will also find all our burial customs are from and taken from this process! Also, our religious holidays, our religious celebrations, the Virgin Birth, Resurrection, Easter, Christmas, everything can be traced back to this process. But the knowledge of what it was about has in many ways been destroyed or hidden. Simply, what they found was turned into a religion, and what they did to the matter they connected to the man! You might consider, the matters must have done something to convince them of God and to also create the organized Religion of Osiris.

From Genesis and alchemy.

Firmament- The firmament is the arch of the sky. In the older drawings if you can find them, the firmament is drawn with the shape of the pyramid. The oven that the alchemical work is done in is always a glass pyramid oven. The oven also has four small pyramids at its base which forms a cross between them. This cross is the "River with Four Heads." It is described in G. Massey's books by how the Egyptians laid out how they thought the world was created. That cross is also about and from the sun, and how the sun moves from south to north, and east to west.

The Earth was in the creation (Genesis and ancient Egypt) as an egg laid by the Great Cackler. The shell was considered Heaven! Consider Genesis where it said, "God called the firmament Heaven" This means any shape containing PHI is considered to be, heaven. Heaven is the space within a shape tied to nature! Heaven was called the Firmament, the design of the oven. Heaven was also the shell of the egg! This all ties to what we call today, "Sacred Geometry." The ancients studied nature, shape and vibration is what they found. How all they used them we do not as a society know. G. Massey said in his book, "The Natural Genesis, vol. two, "The shell of an egg is to be understood as heaven." But he never explained what it meant! Idaramled, Delmar Bryant, a near time alchemists said, "You must know why your church has a Dome or Steeple." Why is because they are designed after PHI. What it means is within the shape (containing PHI) is perfection. God will come to that place. God will not come to sin or imperfection.

The Light created on the First Day. “The first Act of Creation was the laying of the ball of the “Egg of the Sun” by the Great Cackler. In Genesis it said, “Waters Above.” This is plural and is the sun, moon and stars. On the third Day of Creation, these lights were simply moved into the firmament from above the firmament. The understanding of Genesis was that the light of Creation was a special light, that is not true. The Egyptians never made up anything, but always used what is here. Read Genesis again carefully and you will see it as it should be.

From the sun we receive Spirit. From the Moon we receive Soul. What this means is you only have a Spirit and a Soul if you want to believe this is how the earth was Created. This point must not be overlooked. Spirit is the essence we can collect from the sun by use of mercury. It was placed into the earth during the Creation process as was Soul from the moon. These essences are what made the earth androgynous as believed in the past. One must today realize that the earth was not from a Giant Egg, and that it was not created in a yearly cycle as understood in the past. I understand from their study. Everything of the earth does come from a seed or egg, and so it was believed the same applied to the earth. I have in discussion asked many, “You have a spirit, where did you get it”? It is not that I don’t believe man is more than just a body, I do. But my point is here an explanation of what was and where from, originally! Not that I want to say anything against any other understanding but many books have been written about Man and his Spiritual body and the afterlife. I will just say that man has a wonderful way of explaining things he does not understand or know, and how funny that after a time other men will accept that book as Truth. Spirit we gained from the essence from the sun because, early man believed God had placed a bit or part of himself into its light! Consider in Genesis, “The Light is Good.” Spirit, and the reflection Soul is that Good! That essence we collect is what they believed perfected the matter, and was to them, Proof of God! That is why this process was turned into the organized religion of Osiris. This essence is important to understand as this is tied to Baptism. The Spirit we gain through Baptism is tied to everything of this explanation, and to Jesus. This “essence” we collect from the lights above was allegorically shown by alchemists as Bee’s collecting substance for honey!

Mercury, mercury is an alchemical term and usually not tied to the creation but is the most important thing that needs to be understood. In Genesis it states, “a gentle moisture rose up and watered the whole face of the land, for

God had not caused it to rain upon the earth.” Mercury is known as the “Messenger of the Gods.” And so, how is he the messenger? Mercury is tied to vapor! Vapor rose up as stated, the lights shone on it, it condensed and what was joined to the vapor from the light is delivered to the earth. This is how the “Waters come together.” This (Very Important) how or what makes alchemy possible. The lights above can be collected and added to the below by vapor circulating in your oven. In the Emerald Tablet, one line states, “It rises from earth to heaven and descends again.” Again is very important to see the joining, this is circulation within the firmament. This is joining the above to the matter below. This is what slowly perfects the matter in the below over time. This is the only way it works. The perfected matter proved to them that there was a God! This is an assumption! I can’t explain all that happens to the matter, but I have found the process and it will be studied by a lab that will be able to explain each step and the changes. Simply put it is just like making compost outside. Everything is done outside and within the oven. The only difference is the matter we work on is augmented by 8 different steps where the compost you know is only from one. In the northern hemisphere where I live, I start my first day which is Dec. 21. If I lived in the southern hemisphere, I would be starting on June 21. If you live on the equator, you can start at either day. I point this out as it does sometimes confuse the information as some is written by alchemists from these different places on the earth. Also, I want to put here that as said from many alchemists, “The sun is the seed for Gold, the moon is the seed for silver”. What this means is simply, as you know if you made compost, it is good to grow things in it, but by itself it can never grow into anything as there is no seed! We get the seed when we finish for the Red Stone with only sunlight. We get the seed for silver when we use and finish in only moonlight. This is understood also as “Like” in alchemy. The red stone is like the sun, the white stone is like the moon. The total understanding is in my book, but I want to put enough here so that most that read can follow. The process as it is discussed today will be about nature, Genesis, Astrology, many things are tied in the pictorial allegories and to understand one needs to learn many things.

This information was known by many in the past that was of our finest at those times. A list of alchemists can be found in many places. The Secret Societies also are tied to all of this and I will show some of that now. First, most were not tied to any church, but were tied to God through nature. If you learn this information, you will see it everywhere. Recently several famous books

have been about this matter, but much if not most was not included. Let me explain a little. The Templars. In Newport, there is a tower said built by the Templars. On Dec.21, the sun shines through a window of the tower and aligns on an egg carved onto the wall. They wore red and white, the colors of the stone and had a red cross on their tunic. The Red Cross is tied to the sun. The colors are tied to the stones. Their buildings in Europe are all aligned to the sun and stars. The Rose is found in many of these buildings. Quickly, the Rose is about design, like in Rose Window, or a Rose cut Gemstone. It is about as I said earlier, Sacred Geometry. The Masons in Wash. D.C. . Everything of their symbols are tied to alchemy, it is all explained on my site. You should be able to go there now and understand them. The Square and Compass. The question is asked, is it about Geometry or God? I say it is about both, but when you square a circle, you make a True Pyramid. The Rosicrucions, ros equal dew, and crux is tied to light. Need I say more! The Eye of God symbol, which is very important to also understand, seen on the dollar bill, that is actually the Eye of Horus and is tied to the work of the Red Stone at the finish when the matter (Osiris) is aligned with Horus and is at the top of the oven for a period of four months. That time is again Dec. 21 and goes on until April or Easter. Yes, the finish of the stone is about Osiris in the religion becoming a God. But with the matter, it is tied to Easter and is about the "Original Resurrection" of the matters as a perfect substance. It was always about the Matter, and in time it was turned into the organized religion of Osiris. This information shows that recent information given about Orion, Sirius, the times September and December have been portrayed and there is another explanation, not presently known. "The Three Wise men," "The Wisdom of Sophia," "The Knowledge of the Tree of Life," all is about the same wisdom. It is all about the process of the stone, and how man by having this information can perfect himself, or at least make it so he can go to heaven. The three stars in Orion's Belt simply indicate the time for a part of the process to be performed in the below before the joining of Osiris with Horus., The key to this is the "Dog Star" which is with Sirius (Osiris) and is about the matter. Osiris is about resurrecting your rotten matters and turning them into a spiritual body. That is the religion and the basis for all religions. The dog is there because a dog eats rotten meat and turns it into something good, food for himself! Isn't that what Osiris is doing with the dead? The ancients used many animals or birds to express an idea. Probably it was to them a type of library or an understanding they could tie to what they wanted to show. Sometimes the symbols used were also used

because they wouldn't easily be understood. Take the serpent. Yes it was tied to knowledge, but what knowledge? Well the thing about the serpent is simply this. The serpent sheds its skin ever year and so renews itself. The serpent was a way of showing that the "Lights" were used as a way of renewing something (matter). In the creation, it was the serpent that explained to Eve about matter and how man, Adam, was not created perfect, but by knowledge man could be perfected. Was this not what was said in Genesis, that the man could become like gods and live forever? It is on the Caduceus that you see two serpents (sun and moon) and their use to perfect the matter. The Ouroboros is a serpent in a circular fashion that is painted Red and green. Red is always tied to the sun, green is tied to nature. That means the explanation of the Ouroboros is simply, nature is renewed by the sun over time. Color was always important. Blue is always tied to water. The sun was also shown by a single pointed object. The Obelisk we know about, but in alchemy, a dagger, a sword, a spear, anything like that could be used. The Unicorn is always tied to the sun, and fooled a lot of persons by its white color and so mistakenly was sometimes tied to the moon. It was not, always it is about the horn! The moon was a series of things, like the deer horns with many points like the phases. It was sometimes shown by a Trident! Flamel said he used his wife, "with her hair all discheveled." We will visit this information again. The thing is all of alchemy can be explained, all of the religion can be explained. Everything Jesus said in the Gnostics can be tied to this understanding and so be explained.

What I have given here is a very brief explanation of what Alchemy is about. An Alchemy that uses Genesis for a process to perfect matter. The whole discussion and knowledge was turned into the ancient religion of Osiris. Jesus knew this information. He was a man and alchemist. Each though must decide what it is he wants to believe. To me what is important is Truth, and I feel that perhaps that is what I have found. I want to remind all that read this that on my web site I have given much more information and in my book I believe I have given a good explanation of Genesis and alchemy. I have said to many, "Learn the process." If you do that most of the ancient Past will open to you. Much has to be written about the Gnostics but by a scholar that understands what is tied to that information. It is not found in the Bible and though I believe I understand it, I am not a writer.

I want now to quickly give the process of alchemy and the way of perfecting matter. This will help to link the information. One the start of the process, we simply are gathering the parts. I set aside the eggs I will use. I already have my ovens made and ready to use. This goes on for one month and I concluded it is done to start the egg rotting and recycling. I just keep it in a warm place. We always try to keep it around body temp. On the second day, the egg goes into the oven. The oven is completely sealed as it said in Genesis. The Firmament is to divide the waters. By sealing and placing in the dark this is accomplished. The temp. must be maintained. This part of the process goes on for four months. We are copying Genesis, we can't do it in the same time as it was believed God did, but by adaption we can accomplish the same thing. Our next step is May 21. The matter in the oven has been returned to a base. This has to be done by nature. That way nature knows how to go on and work with the substance. That is the end of the second day, and so the third is to bring the waters together. My oven is placed outside where always the sun and moon will shine into the substance. This goes on until late august, three months. The next step, is also tied to the third day, the "and word." The dry land is to come forward. The matter here is then, during September, dried in moonlight only. There is much information tied to this step. All is in my book or on my site. But here I will put, this is where the virgin birth came from originally. The moon was seen as a Goddess, it was done under the constellation named Virgo the Virgin. The moon is the ever renewing virgin, the two are the Two sisters, all is about the matter, the moon and this constellation at that time of year. Sophia, Venus, Mary, however you want to call the moon, it was always about the moon, never was it about anything else. The next step, starting Sept. 21, is about the conjunction. The matter is divided into two. There are two stones to make. One is worked on in an oven with just the matter and moonlight for three months or until Dec. 21. This is to make the White Stone. The matters for the red are also worked on for three months but in the lower part of the oven. That matter is further augmented. Consider John and Jesus. The white is about moisture and light and the head is off the egg! The red is further augmented, it is done at the lower part of the oven and again the waters come back together as in the third day. "One increase's while the other decreases!" (Some will understand this)! The process continues for three months (The Three stars in Orion's Belt), until Dec. 21 also for the Red. The Red is then moved to the top of the oven, is aligned with the sun (Horus) and is worked on for four more months until April 21 (Easter) when it is finished. The Eye of Horus symbol we all know is about

this step. The matters of the red are finished by the sun and the work is four months long! It finishes a Red colored egg, and when further multiplied it turns into a red purple color or ruby color. I might add it turns to the color of the Robe Jesus us shown always wearing! Mary MagDelene is shown with an egg, and in some places, a Red Egg! The stone is now finished, is "LIKE" the sun, is Perfect and also, important to understand, It was believed it perfected what it touched! It has the seed of gold within.

What I want to do now is to copy different parts of what was said in the different Gnostic Gospels. I will then show what the explanation is and where it is tied to the alchemical understanding. Many of these are the parables of Jesus. I have no set pattern of this material. I believe the Gnostics are the truth. They have been recently dug up and were buried the last 16 to 1800 years. I believe they were buried to prevent destruction by the in control religious group then wishing to destroy the past. Not all the past, but what it was based on so that part could be changed for control. That part was never known by the people anyway, so they would never even know that it was destroyed. If you understand what I am saying!

The Gnostics.

Saying 22

"When you make the one two, when you make the inner like the outer and the upper as the lower, when you make the male and female into one, so the male shall not be male and the female shall not be female, then you enter the Kingdom." Egyptian Gospel of Faith pg. 159

There is more to this parable than I have here. What I want to say is this is actually the process of the alchemical Stone. It is also Genesis. "When you make the one two." This is making the egg or matter androgynous by process. This is the earth being androgynous in Genesis. "when you make the inner like the outer and the upper as the lower." This is the earth being dried and coming forth as earth. Now what was not explained in Genesis, is that this is done in Moonlight Only! The inner is here in alchemy compared to the true mercury. What that means is the matter at this stage is now "Like" the moon. But what is really important is to understand that we are doing this in the month of September. The stars overhead were named Virgo the Virgin. The matter was

brought forth by moonlight only. This means, moon equal soul, and so the matter was brought forth with soul only. In other words, that matter at this stage was man created, but the man had no Spirit. He was the lower that was like the upper. So much needs to be understood about this part. All of Sophia, the female goddess that brings forth without her consort, is all about this aspect. This is where all Original Sin came from and is about. This is why Jesus said the many things about the female, I will bring them out. This is about why you need to become Baptized to regain your spirit! This is why if you die without spirit, God will not come to you (you are in sin) and you are dust, and to dust you return. Many things are tied to September that has to be put here. This is when Osiris was reborn a babe. This is also where it was that Osiris decided he didn't want to live as a man, and wanted to become a god. This is when "Death was overcome" in ancient Egypt and a holiday was celebrated at this time. It was called "the Set Holiday." In alchemy, Flamel the man I studied said, "where before we called it death, to continue the metaphor we now call it life." He also said, "This is the True mercury where we hide all our Secrets."

To continue the metaphor, "when you make the male and female into one." This is in alchemy at the end of September and in the process, the matter is again subjected to the lights. First, part of the matter is subjected for 3 months to just moonlight and moisture. This is John the Baptist in our religion, this is the white Stone in alchemy. At this time in ancient Egypt, from Massey, "They hung things from hills and high places." This is because this part of the work is done in the "Eye of Horus" position of the oven for the white stone. What we are interested in though in September is the matter for the red. It is again subjected to the sun and moon, both lights at the base of the oven. This is just like making androgynous matter at the start, only now, it is in alchemy called, "Crowned Androgynous Matter." What this means is the matter of the stone is being further augmented. In the religion of Osiris, to become a God, he has to be turned first into a super type of man and woman. This is beyond what man was created in his process. In Egypt at this time, late September or Oct. the people had orgies! Why is because the Waters Above were coming together, and so they celebrated in the below by doing the same thing. This went on for three months. The three months are tied to the Three Stars of Orions Belt as I had earlier mentioned tied to time.

To continue, "so the male shall not be male and the female shall not be female." This now is Dec. 21 The matter is now a super male and female. The matter,

Osiris, is now moved, like the matter for the white which is finished, into the top of the oven to join with just the sun. Now the male and female are joined to Horus the sun. This is when the Three Stars of Orions Belt align with Horus(The sun at the Dec. 21 equinox). Note that we have just finished three months of work, and there is four to go. This part of the stone is 7 months long, but is divided by three and four. I can show this division in many places. But this is why the # seven is so important in the past. The number of perfection, this is why. Many things are tied to seven, and it is throughout alchemy. Seven can be counted in most of the allegories! This division of three and four is where the Eye is actually tied to, and where the work is done. This works is from Dec. 21 to April 21 when it is finished. When it is finished the male female are no longer that but are now Osiris, God! He is part male, part female, but he is three in one and so God. Osiris is as Horus. In the alchemy part, the matter at this stage is a deep red color, and is resurrected in the process. As before we had the Virgin Birth, now we have the Resurrection. It has united with the sun, the seed of the sun has been put into the matter, it is like the sun! The matter can now become multiplied and become a purple color. The deep purple color is the color of the Robe you see Jesus in today! The Red Egg can be found in old paintings of Mary MagDelene. Jesus is in many old paintings shown with a Unicorn (The sun). Mary in a painting I have is shown wearing a necklace with three stones, red, black and white. The three colors of the alchemical stones. In the book, "Man Made God" by Barbera Walker, it says that Jesus taught Mary MagDelene about the All. The all is how I describe alchemy. It is simply about everything outside through the year, and how to use it

To Continue and finish this parable, ". then you enter the Kingdom." There are several sayings like or similar to this. What I believe Jesus believed is that if you have this matter and take it, it is like having a ticket straight to heaven and God. Ill show this again! Know the stone is considered, "Pure Spirit." It is like the sun, like God, perfection. Perfection can only come from God, that is the understanding, and as it is made and finished by the sun it was understood, God is in part, in the sun.

Next parable, " Gnosis.org/thomasbook/ch24.html

"Death will have power as long as women have children." What this really means is there is No Spirit in the world because it was brought forth by Sophia

(Moon), and so the child unless Baptized would or could only face Death. See, there is no Death if Baptized for Spirit. In Sophia's world, there was no Spirit. This is from the Virgin Birth understanding. Also, in many places Jesus talks about sin and that sin is death. He is not talking about things you might do, but a thing you might not do and that is not "Know Yourself," finding out the Truth of what your made of, matter without Spirit. I will show this again.

Next Parable, Gnosis.org/naghamm/cgp.html

"Discern the size of the Water." "It blows in the Air where the Gods and the angles are." As Mercury, the gods, (Sun and Moon) are in the air and can be absorbed by vapor of the water. This is how it works! This is how the above can be brought to the below. The Gods that are in the air is the sun and moon! Discern the size of water, it is tied to vapor. Some said "it was a water that didn't wet the hands." As I explained, it is vapor in the air with the "Gods."

Next parable, Gnosis.org/naghamm/asclep.html

"And now listen! God and the Father, even the Lord created man subsequent to the gods, and he took him from the region of matter." "For the gods, since they came into being from pure matter, do not need learning and knowledge." This as in the Creation. Adam was androgynous. That is as the earth (Not Pure). The matter can be augmented above that. It can be made perfect as in Pure Spirit, The Philosophers stone, etc! Adam takes 9 months, Pure matter takes 16. "The immortality of the Gods is learning and knowledge, since they came into being out of pure matter." See, they believed if you had/ate the stone, you would become immortal, as they said the "Stone Perfected what it touched." Now, important, "he, man became good (and) immortal, just as I have said. For he, God created (a) two fold nature for him. The immortal and the mortal." Now consider, what happened to man if he was Baptized, and what would happen if he ate the matter while alive as Jesus? I think that to become a "Christos" all one had to do was to eat this matter. I don't have proof of this, it is just how I understand it.

Next Parable, Jesus speaking of Egypt-

"Or are you ignorant Asclepius, that Egypt is (the Image of heaven)? Moreover it is the dwelling place of heaven and all the forces that are in heaven. If it is proper for us to speak the truth, our land is the Temple of the world. And it is proper for you to not be ignorant that a time will come when it seems Egypt

served the Divinity in vain, and all their activity in their religion will be despised. For all divinity will leave Egypt and will flee upward to heaven. Egypt will be widowed; it will be abandoned by the Gods. For foreigners will come into Egypt and they will rule it. Egypt! Moreover, Egyptians will be prohibited from worshipping God. Furthermore, they will come into the ultimate punishment, especially whoever among them is found worshipping.” If this is something Jesus said, I think it, when you understand the basis of the religion, proves what Jesus was really about.

Next parable, The Babylonian Gemara, “Sanhedrin,”

“It is interesting in this connection to remember that “hanging” is also preserved in Christian tradition as an equivalent of crucifixion.” The formal charge having been brought forth against Jeschu is that “he practiced sorcery and reduced Israel and estranged them from God!” “Now the main burden of the Christian tradition is that Jesus went and taught the people publicly– the poor, the outcast, the oppressed, the sinners, to all of whom, according to Rabbinical law, the mysteries of the Torah were not to be expounded unless they had first purified themselves.” These ignorant and unclean livers were ‘Amme ha-aretz (men of earth), and the Torah was not for them. Jeschu was a member of the learned community and he “burnt his food,” that is to say taught the unpurified people and so violated the ancient rule of the order. This may be the real reason Jesus was killed. As I pointed out, Jesus wasn’t the only person that knew this information, there were other Holy Men? That knew what he was doing and preaching.

Next Parable, Gnosis.org/thomasbook/ch25.html

‘You are babes –In the contender– until you become perfect.” This has to do with after Death if you are Baptized! “You joined with him and he with you, from now on for ever and ever. Note, “until you become perfect.” Until you become Baptized and resurrected. And if your not Baptized, death!

Next information,

From the Sanhedrin.

43A, which refers to the death of Jeschu, saying nothing of crucifixion, but twice distinctly states that Jeschu was put to death by hanging.

Next information, The Redactor of the Acts.

“ Has Misunderstood the charge of the Jews and pagans that Jesus learned magic in Egypt.”

Next information, The Philosopher Arnobius,

Who wrote in his treatise, “against the nations,” That the commonest argument against the claims of the Christians concerning Jesus was: “He was a magus, he did all these things by secret art; from the shrines of Egypt. He stole the names of angles of might and hidden disciplines.”

Next Information, From the Talmud Stories,

“The Toldoth, they retain the strange fashion the Magic was brought out of Egypt, have converted the shrines of Egypt into the Temple of Jerusalem.”

Next Information, From The “Disputatio cum Herbario Judaeo,”

“We also declare that Jesus was put to death because he was a magician.”

Next Information, Did Jesus live 100 B.C.? G. R. S. Mead

“Those Talmudic scholars who argue that crucifixion was an utterly unknown mode of execution among the Jews.” Jesus was excommunicated because he learned magic among the Egyptians.”

Gnosis.org/naghamm/letpet.html

‘Our illuminator, Jesus came down and was crucified. And he bore a crown of thorns. And he put on a purple garment. And he was crucified on a tree and he was buried in a tomb.’ Please note the “Purple Garment,” The color of the Philosophers Stone!

Gnosis.org/naghamm/testruth.html

Again it is written (NM 21:9) “He made a serpent of Bronze (and) hung it upon a pole.” This is the sixth tablet of Abraham (alchemical series allegory), also tied to September when alchemically the matter was considered as again, “ Living or Life.” This pole is sometimes the Tau Cross which is said “Jesus also carried”. This would be the return to life for the rotted matter of a man if he was Baptized and Good and remade into a Spiritual body by God.

From the Above,

“For the one who will gaze upon this bronze serpent, none will destroy him, and the one who will believe in this bronze serpent will be saved.” For this is Christ; those who believe in him have received life. Those who did not believe will die.” Now, why a serpent. The serpent renewed himself by changing his skin! He is used as a metaphor for Light The lights, (sun and moon) renew every year and so a serpent was used to represent the light above.

Gnosis.org/naghamm/bapta.html

“The First Baptism is the Forgiveness of sins.” This “SIN” is tied to the fact you are born without Spirit. This is from the bringing forth of the “earth” by Sophia! The Female consort of God that brought forth the below without God! So, “No Spirit from God.” –There are some who upon entering the faith receive Baptism on the ground they have it as a hope of salvation, which they call the seal, not knowing that the fathers of the world are manifest in that place. But he himself knows that he is sealed. For the Son of man did not Baptize any of his disciples.– This is where I understand that Jesus by feeding the stone to his disciples, they can go to heaven without baptism as the stone is Pure Spirit! How they understood it. I think this is tied to the last supper. All alchemists always used Red wine when working with the stone. I think because it tinged the water. It was not important, the Holy Grail, but what was in the grail! There is another gospel where the disciples wondered about Jesus when he cured the sick. He seemed not interested in Baptizing them! This is as I said, the stone is Pure Spirit, and so they received the spirit when Jesus cured them with the stone.

Gnosis.org/naghamm/origin.html

On the origin of the World. Very important to understand. From the Virgin birth originally, or, from female only? I think a misunderstanding of what happened in the process. This was not seen in this fashion in ancient Egypt (Sinful or with sin). “ And when these things came to pass, then Pistis came and appeared over the matter of chaos, which had been expelled like an aborted fetus– since there was no Spirit in it. For all of it (chaos) was limitless and darkness and bottomless water. And when Pistis Sophia desired to cause the thing that had no Spirit to be formed into a likeness and to rule over the matter and over all her forces, there appeared for the first time a ruler, out of the waters, lion like in appearance, androgynous, etc– _Now, this is how Jesus believed the world was formed, and so man was formed from this matter –also– without Spirit as

the matter had none! This is the Original Sin (My Understanding), why you need to be Baptized. I believe all from the loss of past information as to how the process was understood, and or what the religion was based on originally! Remember, Egypt was very old at the time of Jesus, perhaps over 10K years old (this understanding). To accept this as Truth is ridiculous! Why the Church had all this information destroyed! But, the Gnostics show and explain what and why it was here in part. Some the church kept, like Original Sin, but it was not explained to show you the Truth

Now this– from Barbelo “Some said Mary conceived by the Holy Spirit,” They are in error, they do not know what they are saying, When did a woman ever conceive by a Woman? Mary is the Virgin whom no power defiled.” Now, to explain. Who wrote this would have to believe the world came forth from the “Barbelo” Female Goddess as she is the woman mentioned above.! And so how could a female goddess impregnate another woman? This is the understanding that many had at that time, and why it was understood that you had to be Baptized to survive death!

The Mithraism and Buddhism. Even Jesus believed we must give up all of this world, why has been explained. He thought it was an evil world brought forth in sin! “Give up, all of this world, even woman and the fruit of the fig tree.” More on this as we go on, but here see how a religion “Buddhism” is based on an erroneous understanding of the past? How many have given up everything and lived with nothing because of this ancient misunderstanding?

From the Religion of Mithra.

“The religion of Mithra was one of the many forms of the Christ–Mystery, and the mystery of the Christ is the mystery of man’s perfecting and final apotheosis! The Secret of regeneration, of being born anew, or spiritually, or from above– in brief, the divinization of man, was the last word of the Mithra–rites; all else is introductory or ancillary. The Secret was the one secret of all the great mystery –rites and mystery Arts. It was the Secret of the gnosis in all its forms, contemplative or operative. We are there for not surprised to find Zosimus of the forth century, alchemists, a disciple of the Trismegistic lore, in a treatise “On asbestos”– – that is to say on the pure body of man that can remain in the fire without being consumed (Alchemy!)– – writing in a mystic fashion, “and if though dry it in the sun thou shalt possess the secret of all the Great Mystery that no man can impart, in which no one of the wisdom lovers

hath ventured to initiate in words; but only in the sanction of themselves, that is the sanction of their own divinity; have they imparted its initiation. For this they have called in the scriptures, the stone that is no Stone, the unknowable known to all, the that has no honor yet is of Greatest honor, that which none can give but god alone. But I will sing its praise, the that none can give but God alone, the one (material) thing in all our operations which is superior to all that is material. This is the remedy which doth contain all power- - the Mithrac Mystery. I explained as to how the stone is finished by the Sun Only! That is drying it in the sun! This is from the forth century.

From Philo-

The Logos or wisdom (Word). An aspect of God, the formative principle and creative agent in the godhead. Philo spoke of Sophia (Wisdom) often corrupted into Archamothe, as a feminine creative agent! Sophia Wisdom, too, appears sometimes as the progenitor of the demiurge. There are many versions. In the Valentinian system she appears at three levels!

According to the Zohar;

Interaction of the Sefirot brought about Creation. First came the impulse to create (from wisdom), then the process of dividing or differentiating intelligence through seven stages. -The seven stages here are tied to in the process, the last seven months of work. Even in the series allegories of the alchemists, sometimes only the last seven months are shown! This also can be linked to the Seven Knemie of Osiris and the Seven months it takes being with him to be regenerated and resurrected, if you were Good! Almost everything said of the number seven is tied to the last seven months of process. Another way of saying it is this. The alchemists said or listed about everything you could think of, saying, 'No, the stone is not made of that.' What they were saying is you had to make the substance that you can make the stone from. You make that substance the first nine months of the Creative Process. Then, the last seven months, you make the stones!

From the Gospel of Phillip!

Adam came into being from two virgins, from the spirit and the virgin earth! Christ therefor was born of a virgin to rectify the fall which occurred in the beginning. – To explain this, first, to many that are not lost to Gnosticism, Adam was born androgynous. That means from the Spirit (Male god spirit) and from the Moon (female god) Soul! This is Good and how it was understood originally by? Most!? But, what he is saying, Adam was born of two Virgins, Sophia and female star constellation. As it was from female only as I explained, and so, NO Male spirit from the Father God! So Phillip was of the understanding of Jesus. Christ was born of a Virgin, and from the father (spirit) “Not of this world.” To fix the problem. Through Baptism you can regain spirit and so be saved. Now Jesus had to get this understanding from the “Early Christians” as they were called. But, again, why was he Baptized if he was already from the Father (Pure Spirit). See, a lot of mistakes in the Gnostics and past understanding. Part was mentioned where in the one gospel it said, Jesus had two fathers, a father on earth, else, why would he say, “My Father In heaven.” I find in a few of past information concerning all this, some believed we were without spirit, some saw it that we were born with, but very little information tied to this!

Gnosis.org/naghamm/res.html

The Resurrection, The Savior swallowed up Death. (Of this) you are not reckoned as being ignorant—for he put aside the world which is perishing (note—perishing). He transformed himself into an imperishable le Aeon and raised himself up, having swallowed the visible by the invisible, and he gave us the way to immortality. – The world with no spirit has nothing but death to look forward to! And all those here also! Now the way is this, you have to live, be Baptized and die, your members have to rot as in the process, then if you have Soul and spirit god will approach your rotten members and recreate for you a new Body! – – You have to die to Live, Your immortality comes from the resurrection through death!

Gnosis.org/naghamm/apocjn.html

“He is the invisible Spirit, of whom it is not right to think of him as a God, or something similar.” For he is more than a God, since there is nothing above

him, for no one lords it over him. For he does not exist in something inferior to him, since everything exists in him! – This is why Idaramled said, ‘It is necessary for you to know why your church has a Dome or Steeple.’ God is not everywhere, and will not come to you in the ground at death unless you have Spirit. You would be in sin! He will be in your church because the Dome or Steeple if made right constitutes a Perfect place! This is why he appeared to Moses by or through the Burning Bush. He could not be by Moses as Moses was also, "In sin."

The Acts of Peter and the Twelve Apostles.

‘Lord you have taught us to forsake the world and everything in it. We have renounced them for your sake.’ –Jesus teaching the World and all in it is evil!–

“ He gave them the Pouch of medicine and said; “Heal all the sick of the City who believe in my name.” Peter was afraid to reply to him for the second time. He signaled to the one who was beside him, who was John: You talk this time. John answered and said, Lord, before you were afraid to say many words. But it is you who ask us to practice this skill. We have not been taught to be Physicians. How then will we know how to heal bodies as you have told us?”

All alchemists carry a small pouch of powdered stone for this purpose! This shows it was the medicine that Jesus had that cured the sick, not Divinity! Now consider also, Mary Mag Delene and a Red Egg, the Purple Robe Jesus was seen in, all the things alchemical tied to Jesus! Consider alchemists always said to take with Red Wine and consider Jesus and his connection to Red Wine.

On descriptions of the Moon! This is what all must realize when reading of any Feminine tied to the Wisdom. However called or described, it is from the “Two Understandings of the Creation.” “Therni Rabba” (Wilna) see Kraus, see also Laible “The Mother or all Mother” Mother of the living, or shinning Mother, the Power Above; The Holy Spirit; again, she of the left hand as opposed to Christos, Him of the right hand. Theman woman; Prouneikos or Lustful–one, The Harlot, the Matrix, Eden, Archamoth, the Virgin; Barbelo; Daughter of Light; merciful Mother; consort of the masculine One, Revelant of the Perfect Mysteries. Perfect Mercy; Hidden Mother She who knows the mysteries of the elect, The Holy dove which has given birth to twins; Ennoe; and the Lost or Wandering Sheep. –all these terms refer to Sophia or the soul. This is all tied to

the Moon! –using the term in its most general sense – in her cosmic or individual aspect, according as she is above in her perfect purity; or in the midst, as intermediary, or below as fallen into matter!

The Dialog of Petrus Alphonsus, early twelfth century. Peter before his conversion had been called Moses. Moses declared that the Jews contended that Jesus “was a magician” and the son of a harlot, and that he led the whole nation into error. To Peters objection, how could Jesus have learned magic enough to turn water into wine, healed the lepers, lame, deaf, dumb and blind, and beyond all this to have brought the dead to life? Moses replies: Our learned men declare that he learned it in Egypt! Jesus was from the time of age 12 to about 30 in Egypt learning what I call, alchemy!

Egyptian Mythology

“In the original myth the Ogdoad, the Milky Way arose from the waters from a mound of dirt, which defined as Hathor. Ra was contained within an egg laid upon this mound by a Celestial bird. In the earliest version of this myth the bird is a goose. However after the rise of the cult of Thoth, the egg was said to be a gift of Thoth and laid by the ibis bird

Following from G. Massey. Important to realize Massey did not know alchemy!

“Manners and customs of the ancient Egyptians, second series Vol. 1 p 326 ‘The existence of Osiris on earth was, of course a speculative theory – an allegory, not altogether unlike the Avatars of the Indian Vishnoo, and some may be disposed to think that the Egyptians being aware of the promise of the real Savior, had anticipated that event, recording it as though it had already happened, and introduced the Mystery into their religion –author comment. Massey is saying that Osiris is an original copy of the Christian religion. And that is all he was! My opinion is that Massey had a slight problem with Alchemy. Jacob Bohme had been mentioned by Massey several times “Natural Genesis” and disregarded Alchemy! Consider his book title, “Natural Genesis.” Massey did not want to believe something was there in religion other than a natural progression from the ancient to what we have today! I am sure by this comment he had received many from others who must have compare Osiris to Jesus as

we still do today. All of it is settled I believe if, you now spend the time to understand the Alchemical process. Both Jesus and Osiris first are copies of that process!

Some things that Jesus said that should be now understood.

“What does it profit a man if he gains the whole world and loses his soul.” Note he did not say, loses his spirit and soul! To Jesus it did not matter what you gained on earth from the earth as it was all sin. If you were not Baptized, you were dust and to death.

“Human Illness is from sin.” I think the sin he is speaking of here is the one we are born to as he believed.

From Paul, “That we are “adopted” by God”. You are adopted by God because if you gain a spirit, though from the female Goddess only he will “adopt You.”

From G. Massey, Natural Genesis, “There are some tribes in Africa that will not be Baptized unless with Rainwater.”

In Massey's book, Natural Genesis, The ancients placed 9 shiny beads in with the dead. Consider the belief that the matter finished in the ninth month was alive! Isis wore a necklace of nine shiny beads.” This is tying here to the ninth month and moon!

For my purpose I believe I have placed enough information here that if you read and understand it, you should be able to go to the Gnostics, read them and see that all of it is as I explained.

I started to study alchemy in 1972 only for one reason, I believed something had been overlooked. The truth is that the past was almost completely destroyed by those wishing total control of the masses. I surely do not know it all, and I do admit I still learn more every day. It was only less than ten years ago, that I even heard of G. Massey! I had copies of many alchemical books, and the book of the dead, but never considered what I had found was tied in depth to religion. It was a friend that had studied Egypt, that saw my work that brought me to Massey. The book he introduced me to was “Egypt, Light of the World.” You can imagine my surprised when I found the process I was

experimenting with was the same as the times of Osiris and the Ancient Religion. It was another that introduced me to the Gnostics, Miguel and his site, "The GodAboveGod.com." Not more than two years ago. I still have many books to read and much to learn. I can't say why this is so interesting to me, but it is. I just wanted to know what was the Truth. I still always think of and what does it mean to me. What does it mean to mankind. I think all the time, "should this be brought to man's attention"? Yes can be the only answer, as what is important is the Truth no matter what else is considered. I thought and I know it is obvious am no writer or public speaker. I have on many occasions tried to talk to many of our scholars to rectify this fault, but so far have been unable to convince any of what I found. And so this little explanation from me which needs to be expanded a hundred fold to put everything down. Perhaps this will get things moving in that direction. From this, my site and my book I believe it will be done.

Lastly what is important is the medicine. I have worked the process many times. It took many times to find a way through the steps! I succeeded one time but finished with only a bit. It is not now hard, I have everything in my book, but still the steps need to be refined. I have only one problem, and that is that there are many ways to rot an egg! Perhaps you will find the right way before I do! Then and only then will we have all the answers about all of this and about God! To me Jesus was another alchemists from another time. The only difference was he was a Holy Man also. Paracelsus was an alchemists that healed the sick. I know from what he said that he also knew this information. I actually found part of the process from him and another friend, the 3/2 ratio. That is a thing I know only myself, but if you learn and think you will find that too. The point is the past can now be known, all of it. With that finding I am not sure what man will do with his way forward, but it could be better than what it has been in the past. Religion has killed more men than anything, and as I see it, religion today is and will for -- -- how long who can say. But this is the truth, as the Secret Societies, as the Alchemists, there is but one god. He is the god of Nature. He doesn't talk to us, but you can find out about him. He doesn't care if you write it God or god! He has no control over you and he collects no tyth. If you want to visit him I suggest a walk in the park, or as I do, a walk in the woods! As the ancients said, 'You can't see his face or know his name.' But you can know of him through nature. I know he sees all men the same, and I know that he see all women as equal to all men! If we could just learn that one lesson what a world it could be.
